Love's Farm Moving On

We all need to find our own way to reconnect as we come out of lockdown. This is certainly one approach.

Over the Great Get Together weekend of 18-20 June, Love's Farm did exactly that. Despite the rain, spirits were un-dampened as outdoor gatherings went ahead and folks reconnected after months of staying in, as well as meeting some of the new arrivals on the farm.

These events were supported by LFCA's 'Moving On' group, which has formed to discuss how we might move on from lockdown as a community. We wanted to make sure we

are mindful of the different feelings of Love's Farm residents and come up with ideas suitable for everyone. Lockdown restrictions meant LFCA couldn't host events but we encouraged neighbours to hold their own, informal, socially distanced events.

The atmosphere, as ever, was joyful and inclusive, our beautiful outdoor spaces providing for those who are feeling slightly apprehensive about moving on alongside those who are chomping at the bit. Some of the kids

THE 1:1 DIET

by **Cambridge Weight Plan**

Barbecued bangers on the marshy moor

said how wonderful it was to play together again and the adults enjoyed sharing food over the hot BBQ coals and a (soft) drink or two as we got to chat late into the evening.

Some of the picnics were postponed due to the boggiess of the ground and have been rearranged for better weather.

If you missed out on your local street party or pizza and prosecco evening, you can arrange your own, or stay tuned at www.ourlovesfarm.co.uk as we plan some more events.

As we continue moving on we will be arranging some garden gangs, crochet and cocktail evenings and a new exhibition at Love's Farm House. We would also love to showcase your events and ideas so get in touch with

Enjoying a Great Wet Together on Day Close

what you have planned.

If you're not ready to move on, or you want to move more slowly, that's OK too. We have some quiet ideas — both indoors and outdoors including a walk and talk organised by Love's Farm Runners.

A Message from Dr Nik Johnson

Dear Friends,

As some of you will by now know I had the honour of being elected Mayor of the Cambridge and Peterborough Combined Authority.

As you can imagine it has been quite a whirlwind since — and also quite life changing. But, as I look forward to setting a bold new agenda for what I like to call "Greater Cambridgeshire", it comes at a cost in other ways.

Some of the things I have been doing are no longer permissible in my new role. Sadly this means that I have had to resign my post as a councillor for St Neots East on Huntingdonshire District Council.

I campaigned for the Mayorship on the principles of the 3 C's, just as I did when standing in St Neots East in 2018. Those principles remain with me — always.

I can confidently say that during my time representing the residents of my ward I have experienced compassion, co-operation, and most importantly, community to a level of which I could not be more proud!

I will always be grateful to the residents of St Neots (Love's Farm) for not only welcoming me into your community but for giving me the chance to gain experience and learning as your district councillor these past three years. It will stay with me forever.

I am delighted that I can now represent you as Mayor of Cambridgeshire and Peterborough.

Rest assured my role may have changed but I will not forget Love's Farm and hope to visit often and to see as many of you as I can when I do! Many thanks to you all

Nik Johnson

Meet the Candidates for the St Neots East By-Election

Election held on Thursday 8 July, Love's Farm House

The St Neots East District Council By-Election will be held on Thursday 8 July. The successful candidate will replace our previous District Councillor, Dr Nik Johnson, who was recently elected to the post of Mayor of Cambridgeshire and Peterborough.

We're lucky to have five strong candidates standing in St Neots East. To help you make an informed decision, we asked them all to tell us a

bit about themselves and what their plans are for Love's Farm if they are elected.

Whichever candidate you choose, don't forget to come down to Love's Farm House to vote on 8 July.

Sam Collins, Conservative Candidate

My background is in policy and charity work, and I have worked as director of both a

charity that supports street and slum children in Kolkata in India, and Age Endeavour Fellowship. I currently work in a think tank in Westminster. Beyond work, I also serve as a governor for a St Neots school.

For the next nine months I want to help support the excellent work done by the Conservative majority on the District Council, which have delivered for the people of St Neots while freezing Council Tax. Whether it is securing £12.75 million for regenerating our town centre (funded entirely by the Conservative-run central government, County Council, Combined Authority and District Council), supporting community organisations to get through the Covid pandemic, or putting parking restrictions in place in Love's Farm and Hawkesden Road to improve traffic flow and safety, the Conservative administration has been working for you.

Locally, I want to work to make local roads on Love's Farm even safer, particularly around the school, as parents and kids crossing Great High Ground to get to Roundhouse School often feel unsafe from traffic coming around the Stone Hill corner.

As the change in administration at County Council has shown us, there are only two options when choosing a councillor – support the Conservative candidate to back the hardworking and successful Conservative administration in keeping Council Tax low and services paid for, or end up with an unstable coalition between Independents, Labour and the Lib Dems.

Lara Davenport-Ray, Green Party Candidate

Lara lives on Hogsden Leys and is passionate about Love's Farm & Wintringham. She pledges to

work for you and the common good, with the same compassion that you would show to a neighbour in need.

Even when it's not election time, Lara nurtures community projects. She provides free debt advice to local families through the Community Money Advice scheme. She addressed the graffiti problem on our northern rail bridge and also manages a recycling scheme outside her home.

Lara also cares for our green spaces. You may have spotted her

personally removing graffiti, picking litter, planting trees and removing debris from our waterways.

Lara's Top Priorities

- Climate Change — The District Council should declare a climate emergency and work towards carbon neutrality.
- Our Future — Every Council decision should consider effects on future generations.
- New Builds — The highest environmental standards should be required on planning applications from Wintringham and Love's Farm East developers.
- Social Tenants — The Council should show compassion and provide support to BPHA and Chorus residents.
- Council Tax — Support should be generous for those who cannot pay, rather than putting the poorest further into debt. All Council Tax revenue should be spent efficiently.
- Water Management — The Council and housing developers should perform routine maintenance on our drains and waterways.
- Our Changing Landscape — When projects affect our community (like upgrades to the A428 and the proposed East-West Rail line), your District Councillor should advocate for your views.
- Transport — The Council should invest in more electric vehicle chargers in car parks.

Ben Pitt, Independent Candidate

I moved to Love's Farm in 2012 and have been heavily involved in community life ever since — as a

parent governor at the Round House, on the LFCA committee, producing this newsletter and spearheading the launch of Love's Farm House.

I'm standing as an independent candidate because I believe that a vibrant economy, environmental responsibility and social justice aren't mutually exclusive – let's aim to have it all.

Regardless of the upcoming election, I'm already working on some big plans for our town. St Neots Festival is an ambitious performing arts festival that's coming to Priory Park in 2022. Neot Zero is a campaign to inspire and support businesses and households to go carbon neutral by 2030. I have secured funding to refurbish the Priory Centre to attract professional theatre and live music performances. I am developing plans for business incubator spaces, meaningful adult learning and skills exchanges in the town.

I want to ensure that the expansion of St Neots East includes the highest quality homes, green spaces, transport links, community, retail and employment facilities — and equally

Love's Farm House is Hiring!

Love's Farm House is recruiting for a Bar & Cafe Supervisor and bar staff for the Farm House Bar.

Bar and Cafe Supervisor

Salary - £11.33 per hour

Hours - 4 hours per week with the potential for overtime, plus ad hoc bar shifts on Friday and Saturday evenings (varying from 2-7 hours per shift). Other than set hours for bar shifts, the working pattern is flexible.

The Farm House Bar has gone from strength to strength since it opened its doors in 2015. There is a regular schedule of Friday evening events, including the ever-popular karaoke and cocktails, Book Club and quiz night, as well as one-off events such as film nights and even salsa classes. Our semi-regular beer, gin and whisky tasting nights often sell out weeks in advance. We have a small and dedicated team of bar staff, but overall management has previously fallen to a volunteer. As we look to reopen the bar after the COVID-19 pandemic, we are looking to employ an experienced and enthusiastic bar supervisor to take on this role and help to make the Farm House Bar the premier destination for Love's Farm residents on a Friday night.

This role will be for 4 hours per week, with the potential for overtime, in addition to carrying out ad hoc bar shifts. The role will involve managing a small team of bar staff; preparing the staffing rotas for the Friday bar, Saturday cafe and ad hoc parties and events; carrying out stock takes and ordering stock for the bar and cafe; managing the regular Friday evening event schedule; and assisting the Love's Farm House Events Team with organising and marketing one-off events.

The full job description can be found at www.lovesfarmhouse.com/about/jobs.

To apply for this position please send a CV and covering letter, setting out why you believe you would be suitable for this role, to jobs@lovesfarmhouse.co.uk.

Closing Date: Friday 23 July 2021

Bar Staff

Salary - £9.30 per hour

Hours - ad hoc shifts, mostly on Friday and Saturday evenings. Shifts may vary from two to seven hours, depending on the booking schedule.

Love's Farm House requires part-time bar staff. Shifts will be on an ad hoc basis, mostly on Friday and Saturday evenings. You may also be required to perform caretaking duties, such as opening and closing the building and looking after hirers.

The full job description can be found at www.lovesfarmhouse.com/about/jobs.

To apply for this position please send a brief CV and covering letter setting out why you believe you would be suitable for this role to jobs@lovesfarmhouse.co.uk. Please contact Emma on 07751 121354 or email bookings@lovesfarmhouse.co.uk for more information.

Closing Date: Friday 23 July 2021

importantly, a vibrant, caring community.

I'm currently working with HDC councillors and staff on many of these projects. By electing me as your District Councillor, you will give me a seat at the table where the decisions are made. I will be your representative: visible, accountable and not tied to a party line.

These are my aspirations but I want to know yours too. Please get in touch at benpitt@gmail.com.

Dr Geoff Seeff, Liberal Democrat Candidate

My wife, Deanna, and I moved to Love's Farm last July to be closer to our daughter and her family, residents

here since its opening. We are both in work but, as for everyone, Covid restrictions have meant that we have not been out and about, taking part in local activities and meeting people as we would otherwise have done. For example, aside from my involvement in politics, up until the move I was for many years the chair of and enthusiastic participant in a successful annual community arts festival in the London suburb where I previously lived.

With the award of public funding, St Neots has a once in a lifetime opportunity to re-establish itself as a

distinctive, vibrant and attractive town in which to live and visit. I am sure this is welcomed by all but there is a vast difference between the aspiration and the delivery of a complex regeneration scheme. As a professional consultant, I have been a risk assessor and advisor on such projects for over 30 years, large and small, across the country (currently, the London Olympia Exhibition Centre). Having read the published documents, albeit not the unpublished background studies, I believe that there are many unanswered questions on the rather vague plans put forward thus far. I believe that I can represent residents with an experienced voice that will constructively challenge the proposed designs, costs and commercial arrangements and help ensure a good scheme comes to fruition and achieves outcomes that benefit us all.

Helen Stroud, Labour Candidate

I'm Helen Stroud and I need your support to keep St Neots East Labour. Together we can benefit

from Dr.Nik Johnson's wider mayoral improvement plans by:

- Supporting a greener environment with new plans for electric buses locally and in the Cambridgeshire and Peterborough Combined Authority

- Supporting flood prevention schemes; opposing developments which could impact locally
- Supporting improved career opportunities with the proposed connectivity between Love's Farm and Cambridge, Milton Keynes and Oxford
- Supporting our young adults by extending education and training opportunities with free transport for 16-18s.

On issues specific to Love's Farm, I'm interested in you; in your aspirations, concerns, issues, views and values. If elected, I will listen to you; amplify your voice and always feed back responses.

How will you know I can do this?

I have spent my professional life, responsible for Specialist Teaching throughout my local authority, doing exactly that. I have advocated successfully for young adults and families.

Working in partnership with the N.H.S., Social Services, Police and Youth Offending Teams means I value collaborative work and will actively seek to work with volunteers and professionals on everything from housing, roads and refuse collection to the safety issues which affect us all

Having made deliberate choices to work within Equality of Opportunities settings, you can be sure I will work determinedly towards resolving issues arising from age, gender, ethnicity, identity, physical and mental

health or disability.

Currently Only 1 female HDC representative from St Neots.

News From the Farm House

"Freedom Day" may have been postponed, but there's still lots going on at Love's Farm House. We have more than 25 groups using the building on a regular basis including toddler groups, children's activities, youth clubs, exercise classes and Breakfast Church. All activities have strict safety measures in place to keep everyone safe. From Acro to Zumba and everything in between, there really is lots to get involved in.

You can find our July What's On Guide on the back page. While the restrictions are in place, all sessions must be booked in advance. Visit www.lovesfarmhouse.com/whats-on or turn to the inside back cover of this magazine for contact details.

Party bookings can return from Step 4 of the government's roadmap and we are happy to take provisional bookings for 19 July 2021 onwards (subject to confirmation of the implementation date for Step 4). We

Breakfast Church: it's good to be back

also hope to bring back the bar and cafe in early autumn.

Love's Farm House Survey

The Love's Farm House Trustees are looking to the future to find out what you would like to see from your community centre as we reopen after the pandemic. Whether you are a frequent visitor to Love's Farm House or you have never set foot in the building, we would really love to hear from you! To access the survey, visit tinyurl.com/LFHsurvey2021 or just scan the QR Code above.

New Public Car Park at Station Square

The scrub land between Station Square and the station itself is the last piece of land on Love's Farm to be developed. Following a recent auction, that looks set to change.

Its new owners have submitted a planning application for a 45-bay commercial car park. Given the covenants and practical constraints on the land that limit the types of use,

A computer visualisation of the new car park

this seems like one of the only feasible options. The proposals include four electric vehicle charging bays — a welcome addition to Love's Farm,

At a presentation to the LFCA committee meeting on 16 June, residents welcomed the proposals but raised concerns about disabled parking bays and extra traffic coming onto Love's Farm. The planning application should be available for comment at www.huntingdonshire.gov.uk/planning soon.

Little Loves

Little Loves, which runs on a Thursday morning at Love's Farm House, has had a gentle return with numbers restricted to 15 adults and their children. Book via the Little Loves Facebook page or email Roxy Andrews on roxya88@hotmail.co.uk.

For some children, who were born during these lockdown months, this has been their first experience of a play group. It's helped everyone to have lower numbers attend as we all adjust to being together again (observing social distance) after so long.

SMART days

SMART days have been running over the past few months as restrictions have eased and contributed to helping keep our shared spaces and green places clean and cleared. Thank you to everyone who has participated. Our next SMART day will be Saturday 24 July at 11am and/or 2pm.

Community Garden

Our community garden at 76 Stone Hill continues to bring pleasure to those who visit. Over the last couple of weeks we've added a new section of path and are looking forward to welcoming the Love's Farm book group to their first in-person, outdoor group since lock down. This will also give them an opportunity to officially open our first mini library house, which was kindly made and donated by one of its members, Scott Wells. Visit the garden anytime to borrow a book, pick some produce (currently there are tomatoes and currants growing) or just ponder all of life's gifts from a different seat.

Helene laying the path at the community garden

Katie Rush with the mini library at 76 Stone Hill

The Life of a Community Chaplain

I've been your community chaplain for almost seven years and during that time have sought to connect with as many people as possible, in as many ways as possible. Sometimes I'll take a walk through our community and be out for twice as long as I intended, having 'bumped' into and

chatted with a child from school, a parent from Little Loves, a regular from the Tuesday Cafe, a member of the community association, a SMART volunteer, or someone who's been to Messy Church or the community garden or Breakfast Church, or wants a space at Youth Club. Other times I'll take a walk and not meet anyone but either way I try and remember to pray that our community would be a place of peace and belonging, somewhere everyone feels connected. That's definitely been a challenge over these past months as we've been forced to live without each other in the same way. Connecting again will take time; some of us will be ready before others but regardless of our preferred pace, living well alongside one another is so important. We all fill our lives with all sorts of busy-ness but at the end of our day our lives are more often than not appraised by the quality of our relationships. The older I get the more concerned I am to make sure that it's relationships that are my priority. This includes the care I show myself, the care I allow others

to show me, the care I know as I nurture my faith and the care I show the people around me.

Can I encourage you to 'take care' over these next weeks in all those directions. As the pace of life picks up, give time for reconnecting with all those who care for you and need your care.

Helene Tame

East-West Rail: LFCA Submits its Response

East-West Rail is a proposed new rail link that is set to connect Oxford and Cambridge, running via Milton Keynes, Bedford and St Neots. The line from Oxford to Bedford has already been approved by central government, with completion expected in 2025. The section from Bedford to Cambridge was the subject of a public consultation, which closed in June 2021.

On 19 May, Love's Farm Community Association (LFCA) debated the proposals, and raised a number of concerns in its response to the consultation.

These included:

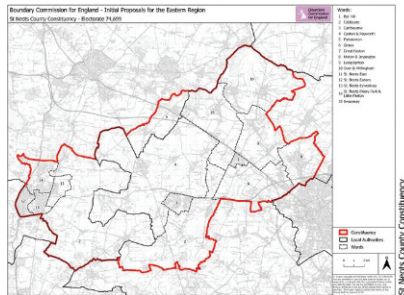

- The distance of the four proposed locations for St Neots South / Tempsford station, which are a significant distance from St Neots.
- Significant negative impact of 13.9m high viaducts that — on some proposed routes — run very close to Love's Farm East and Wintringham.

- The likely use of diesel trains on this line, at odds with efforts to cut carbon emissions.
- The longevity of the train line with the inevitable rise of autonomous vehicles over the coming decades.

LFCA is just one small voice in a big consultation for a massive infrastructure project, but we will be following its progress carefully, keeping residents informed and doing our best to represent their views and interests.

If you'd like to get involved in this, or any other matter affecting Love's Farm, please get in touch at chair@ourlovesfarm.co.uk.

Proposed Changes to Our Parliamentary Constituency

The proposed constituency, with St Neots on the left, stretching to the border of Cambridge

On 8 June the Boundary Commission published proposed changes to the Parliamentary Constituency boundaries. The significant potential change for us is the formation of a new "St Neots" constituency that includes St Neots, Abbostley, Great

Paxton, Waresely, Gransden, Cambourne, and other areas.

If enacted, this means that we would no longer be part of Jonathan Djanogly's Huntingdon Constituency and would likely mean that we are represented by a different MP.

A consultation is open until 2 August 2021; submit your response at www.bcereviews.org.uk.

Introducing our New County Councillor

Hopefully most of you know me already but I'd like to introduce myself as your new County Councillor. I was elected by one of the slimmest margins in the history of the Cambridgeshire County Council, by just 9 votes (or 0.5%) over Conservative candidate Sam Collins. Sam and I spent a stressful 24 hours at the count, which in our case was only decided after three recounts. I offer my sincere condolences to Sam, who is an all-around decent chap. No one deserves to lose by 9 votes, and it could easily have gone the other way.

I would like to thank everyone that turned out to vote, no matter which candidate you voted for, on this occasion you definitely influenced the outcome! I'd also like to thank my predecessor Cllr Julie Wisson who worked tirelessly for village residents during her eight years as your County

Councillor. I will work hard to build on her legacy.

The Conservatives finished three seats short of the 31 they needed to maintain control of the Council. Although the Conservatives still hold the largest number of seats, CCC is now under a joint Liberal / Labour / Independent administration, another first for the area. It looks certain to be an interesting four years, with myself and three other Independents holding the balance of power.

Stephen Ferguson

Love's Farm Out of Doors

It has been a long time since my last blog, a long COVID winter and a terribly cold, dry spring. I really can't remember such a slow emergence for plants and trees and I fear many of the young trees will not fully recover despite efforts to water them. It looks likely we won't have any quinces this year and the situation may be the same with many English fruit crops.

Then of course we had our annual infestation of spindle ermine moth — they were so late that I thought we might escape their ravages but no, they have been worse than ever, their webs compounded by a snow of willow seeds. Happily we know that our spindles will survive and hopefully still give us a pretty orange and pink show in autumn. We also have to expect more and more self-sown willow plants, in any nook or cranny.

Wintringham Blooms

Walking down the Cambridge Road path on Wintringham, I have been watching the unfolding of the most beautiful wild flower areas. We have often talked about wild flowers for Love's Farm, and I was lucky enough to meet the designer and he has given me the "how we did it" information! Basically, dig out a hollow into the sub-soil, bank it up into a mound, subsoil on top, and cover with a special seed-containing compost. Possible, but expensive! I have always banged on about the maintenance of wild flower meadows as being one of the difficulties. I suggest we watch what Wintringham do, and how successfully, before we hire a digger.

One morning on this Wintringham walk I saw a mallard duck Mum with six or seven little brown ducklings and one golden one, in one of the pools. I told the next few families on their way to school but by afternoon they had gone.

Easier to spot were the magpie family at the top of that path, four very

noisy young who are reluctant to leave home. Talking of noisy babies — back on Love's Farm we have had a bumper year of starling babies in our fascias. Most baby birds keep quiet when being fed, their wide yellow-rimmed mouths confirming to mum and dad that they are hungry. Not so with starlings — 6-8 babies all shrieking "me, me, me . . ." I've seen no house martins nor heard any swifts so I fear they just didn't come back from Africa to the cold this year. It could have a bad effect on the species.

I'm sure many of us think Station Square is not the heart of the community that we would like. It has been found that the drainage underneath is very poor and to correct this would be long and expensive. In discussion with HDC it is hoped to put in large raised beds with a tree in the centre of each with surrounding flowers. The two long plantings will also hopefully be reworked. We have just identified some grant money for hedge planting — this is very early days but if anyone has an idea where we could use a new hedge, do contact me.
